Nairobi: A City in Motion

Nairobi is home to over 4.5 million people and is one of Africa's fastest-growing capitals. It's a city of ambition — and contrast.

More than 50% of Nairobi's residents live in informal settlements, many surviving on less than \$2 a day. At the same time, the city produces innovation, culture, and relentless entrepreneurial energy.

For the average Nairobiian, daily life means navigating traffic for 1–2 hours each way, chasing opportunity across a city that never slows down.

This tour takes you beyond the skyline.

You'll ride through the layers of Nairobi — from high-rise districts to the vibrant backstreets where the real pulse of the city lives. You'll see resilience, hustle, creativity, and community up close.

This isn't just sightseeing.

It's understanding Nairobi from the inside.
