The Story of The Northern Expedition

The Northern Expedition was born from a simple idea — to rediscover Kenya through the backroads, mountain passes, forests, valleys, and forgotten trails that most travelers never experience.

It is more than a route.

It is a journey through the soul of Kenya.

Beginning at 2 Peponi Road in the heart of Nairobi, the expedition leaves behind the noise of the city and heads north into the green highlands of Central Kenya. From there, the route bends westward into the dramatic landscapes of the Aberdare Range and descends into the Great Rift Valley. The road continues south and west through remote trading centers, dusty tracks, and rolling savannah. Here, the Northern Expedition reaches its wildest chapter.
